

Welcome to Grade 1 at Off Campus!!!

Our materials are divided into two units of work - Mathematics and Thematics. Each unit consists of nine modules of work:

Mathematics	Thematics
Module 1	On with the Show!
Module 2	Imagine That
Module 3	Day Sky, Night Sky
Module 4	The Wonderful World of Animals
Module 5	Families, Yours and Mine
Module 6	On the Move
Module 7	Under the Magnifying Glass
Module 8	Let's Have a Story
Module 9	Time to Celebrate

Your child will complete two green assignment booklets for each module. These will be handed in to the teacher for evaluation.

Please encourage your child to work independently when appropriate. Most of my evaluation will be in the form of anecdotal comments as these will be the most beneficial in addressing your child's individual learning strengths and challenges.

I also use the following checklist to help students learn criteria for quality work:

Give Me 5

1.	Complete - No activities have been missed	
2.	Neat - Writing is neat and a ruler is used for drawing lines	
3.	Timely - Work has been completed on or close to due date	
4.	Independent - There is ample evidence that the student has completed most of the work independently	
5.	Correct - Most of the questions have been correctly answered	

Supplemental Material List - Gr. 1

(All materials will be supplied by Off Campus and must be returned at the end of the school year.)

TITLE	OUT	IN
The Orchestra (tape)		
10 Carrot Diamond (tape)
